

SFPD OIS from 2011-March 2018: The Disproportionate Killing of Black and Brown People!

This report summarizes demographic data about officer-involved shootings (OIS) in San Francisco from 2011 to 2018. It is based on information collected in our data set of “SFPD OIS, Scandals and Impunity 2011-2017,” updated with the latest killings to date in 2018. The data set can be found online at www.justice4luis.org.

Confirmed: African-Americans and Latinos are disproportionately killed by SFPD

Between 2011 and March 2018, there were 54 officer-involved shootings (OIS) carried out by San Francisco police officers. On average there were 8.5 OIS per year from 2011-2017.

Of those 54 OIS:

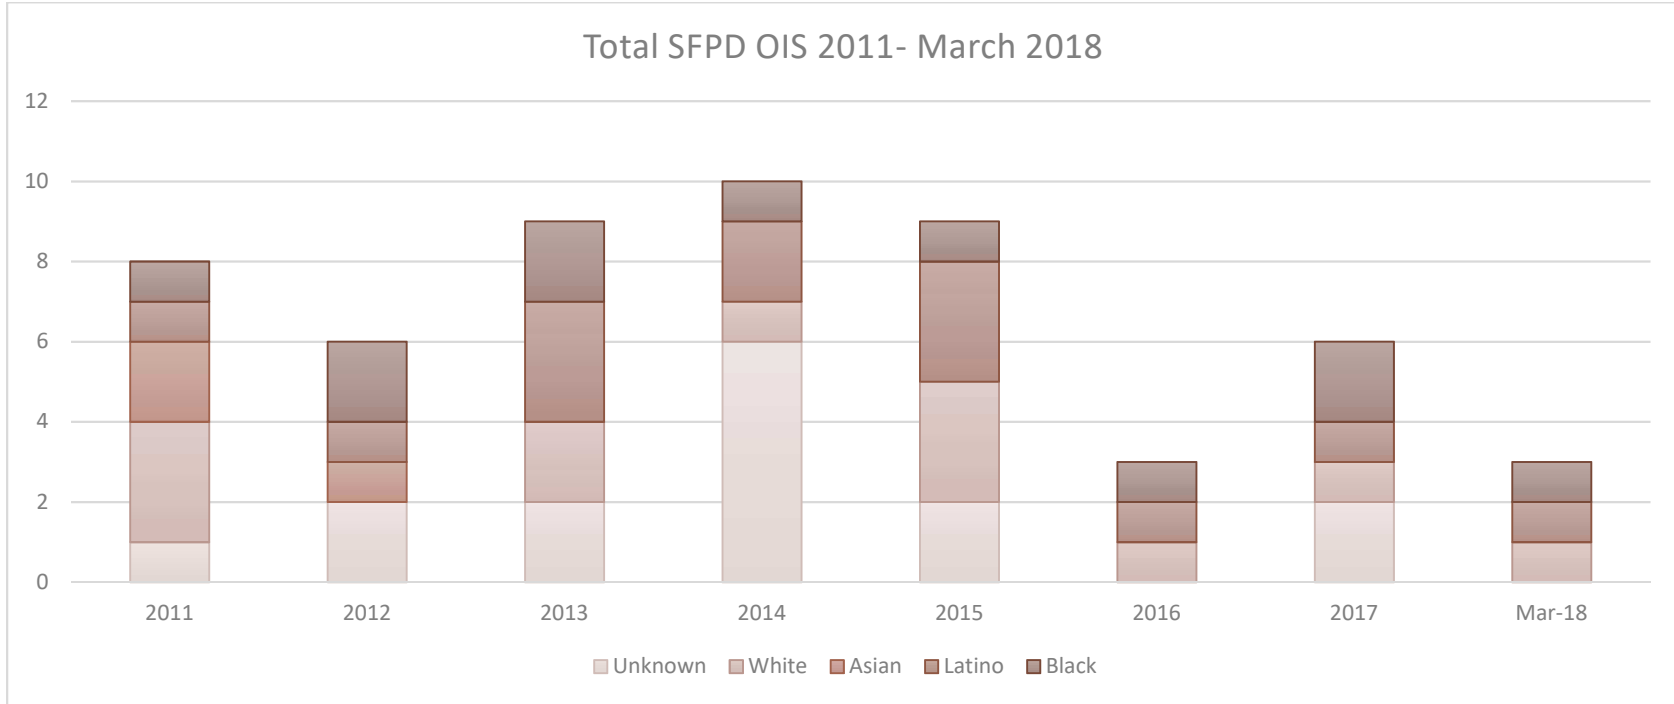

- 24 were fatal and 30 were non-fatal, i.e. 44% were fatal and 56% were non-fatal
- 63% of those killed in a fatal OIS, whose race we know, were people of color, primarily Latino and Black

Black people are 6 times more likely to be shot and killed by SFPD than white people in the City. Latinos in San Francisco are 3 times more likely to be shot and killed by SFPD than white people in San Francisco. This based on the following:

- Hispanics comprise 14.7% of the population of San Francisco, but represented 29% of all those killed. (1.97 times overrepresented)
- African-Americans comprise 5.9% of the population of San Francisco, but represented 25% of all those killed. (4.2 times overrepresented)
- Caucasians comprise 41.7% of the population of San Francisco, but represented 29% of all those killed. (.69 times underrepresented)

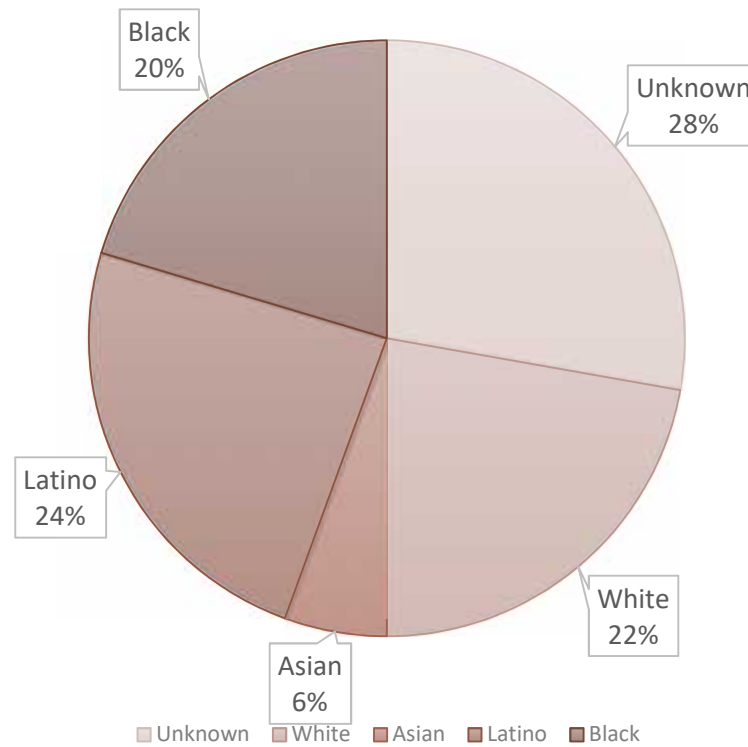

Based on our report [*D.A. Gascón's Scorecard on Police Accountability: OIS 2011-March 2018*](#), we know that no OIS—whether fatal or non-fatal—from 2011-March 2018 has resulted in charges against officers involved. In those investigations closed, D.A. Gascón stated that there was either insufficient evidence to show wrongdoing or that officers acted lawfully. *Find our report online!*
